EXPERIENCE

Environmental Management and Planning

- **Environmental Assessment Officer, Queensland Department of Environment and Science (DES)** – Paul supported the investigation into environmental impacts of State-significant projects requiring an Environmental Impact Statement (EIS).
- **Environmental Planner, City of Gold Coast** – During a work experience placement, Paul developed an Urban Forest guidebook which outlined the steps for a city-wide forestry plan. He also assisted with several Development Assessment applications and community education sessions.
- **Environmental Consultant Mentee, Envirosphere Consulting** – This mentoring position involved monitoring the effects of soil contamination and land degradation to determine means of prevention or control. Paul also performed ecological and desktop site assessments and investigated client legislative obligations for development applications.
- **Sustainability and Legacy Intern, Gold Coast 2018 Commonwealth Games Corporation** – As a member of the Sustainability team, Paul helped to ensure sustainable procurement within the supply chain, minimise waste at sporting venues, and develop GOLDOC legacy reports for future Games.
