

DUNCAN BOSS-WALKER

Principal Environmental Engineer

Duncan is an environmental professional with more than 20 years' experience working as a consultant in the environmental industry. A project manager, specialising in the delivery of complex environmental projects, Duncan has significant experience in the management and delivery of environmental projects for both public and private clients.

Duncan has excellent skills in collaborating with project stakeholders and leading multi-disciplinary teams to achieve project outcomes. Duncan's strengths include identification of, and collaboration with key technical teams to assess and manage environmental risk for clients. Duncan has collaborated with numerous local, State and Federal stakeholders, including regulators, to successfully deliver environmental projects for client.

Duncan is an excellent communicator and is adept at developing mutually beneficial long-term relationships with clients. Duncan has acted as the key liaison on panel agreements with clients including Defence, RailCorp/Transport for NSW and Randwick City Council.

Duncan has specific expertise in the management of contaminated land, environmental, health and safety (EHS) solutions and environmental management. Duncan has experience in delivering contaminated land projects in all parts of the life cycle of a project from due diligence, through intrusive assessment and remediation. Duncan has led EHS audit teams for large multinationals throughout Asia and supported the development of best-practice EHS systems.

Duncan is an accomplished senior project manager having delivered major programs for TfNSW and NSW DPIE in senior delivery roles.
